The 2019 Ice Cream Social/Auction to benefit the RBS Heritage Museum will be held Saturday, July 20, 2019 in the Entertainment Center of the Donoho Hotel on East Main Street in Red Boiling Springs, TN.

The evening begins with the "All You Can Eat Ice Cream Tasting Contest". All the ice cream is homemade. You have the chance to vote for your favorite ice cream flavor by placing coins in jars located by that ice cream. The winner is determined by how much they collect.

Kinship provided the evening's entertainment and fun didn't stop there... Ben Bray of Ben Bray Real Estate and Auction kept it rolling with his humor and goodwill.

Businesses from 10 different states and individuals and businesses from 20 different communities in TN helped us raise over \$5,000 in one evening in 2018. Come help us break that record this July 20th!

Tickets for the social can be picked up ahead of time at Step Back in Time at 252 Main Street or from any Vision 2020 member and on EventBrite. Tickets bought ahead of time are \$5, at the door they are \$7.

For those who want more than ice cream, pizza, chips, soft drinks, and coffee will be available for a small extra charge.

Website Under Construction!
www.maconcountychamber.org

Check out the Chamber's new website! Brenda Hielt has been working with Randy Robbins at Fastrak Solutions to give us a fresh new look! But we still have a lot to get done and we need your help.

In the Business Directory section, each of our members should find their company name listed along with a business category. Please review your info and let us know if it is correct. And, we also need each of you to send us a photo which must be in JPG or PNG format and less than 1mb. Minimum resolution 800px by 800px. Image can be a logo, business front or something that helps customers recognize you or your business.

Plus we need a description of your business/organization which can be up to 1000 characters.

Map/Address: Map is generated by Google Maps. If the address is correct but the map shows the incorrect location, you can correct it with Google Maps. The procedure is found here: <https://support.google.com/maps/answer/3094088>
