Letter from our Chairperson

Greetings all,

Hope that all of you had a richly-blessed Christmas season and rang in the new year with great hope and joy.

It's been a wonderful experience being a part of the Macon County Chamber of Commerce Board of Directors over the past two years, and I look forward to serving as the board chairperson this year.

For four years, I served as the editor of the Macon County Times, and I'm also a member and elder at Calvary Baptist Church, which – like the Macon County Times – is a member of the Macon County Chamber of Commerce. I recently was named the editor of the Lebanon Democrat, which is owned by Paxton Media (which is also the parent company of the Macon County Times), and so, my involvement with the Times continues, albeit on a less-regular basis.

We've had wonderful chairpersons as of late with Keith Allen and Laura Merlo, and I'm thankful that those great assets are both continuing on as board members in 2022.

We are thankful for the selfless work of Troy Burrow, Debbie Hughes and Amy Phelps – whose board terms ended at the conclusion of 2021 – and we are excited to work with our three newly-added board members – Felliasha Adams, Titus Carter and James Harrison – in 2022.

Thanks to the tireless efforts of Keith (our events coordinator for 2021), Chamber Director Jennifer Hardman and Chamber Assistant Director Brenda Hiatt, the annual Macon County Christmas Parade and Red Boiling Springs Christmas Parade were wonderful hits for the community as always, and we're looking forward to more great events that lie ahead as we plunge headfirst into 2022.

If we can be of assistance, don't hesitate to reach out to us.

Look forward to seeing all of you soon and hopefully hearing of how well that 2022 is treating you so far.

Blessings,

Craig Harris, Chairperson

Macon County Chamber of Commerce Board of Directors

THYROID STIMULATING HORMONE SCREENINGS

at Macon Community Hospital

THE THYROID MAKES HORMONES that regulate the way your body uses energy, and it also plays an important role in regulating your weight, body temperature, muscle strength, and even your mood.

A THYROID STIMULATING HORMONE (TSH) test is done to find out if your thyroid gland is functioning properly. It can tell you if its overactive (hyperthyroidism) or underactive (hypothyroidism), and can even detect issues before you have any symptoms. If untreated, a thyroid disorder can cause health problems, so why wait?

COME BY THE MCH LABORATORY THIS JANUARY for your **FREE** thyroid screening, and find out if your thyroid is working the way it should!
